

How to use Swift Access.

swift

It all starts with your Swift remote

Step 1 Press the red power button to turn the TV on

Step 2 Press the button with the house on it to bring up the home screen

Step 3 Press the up / down / side arrows to browse the content and choose the programme you want

Step 4 Once you choose what you wish to watch press the OK button

Step 5 The house button will always take you back to the home page

Step 6 Volume up or down keys control the volume level

Swift remotes are matched to a TV. So if things are not working as they should, check you have the remote set up for the TV in the room
