Contract Wins

Swift secured contracts across both Mining and Aged Care target markets during the period:

- **Iluka Resources** – Swift announced during the period a \$740k contract award for an installation and subscription agreement to provide Swift Access to Iluka's Balranald site for 36 months. The contract includes the provision of product support by Swift's highly skilled 24/7 Technical Support teams. Swift remains the provider of choice with Iluka, with Balranald being the third Iluka site to receive Swift Access. Swift looks forward to supporting Iluka's future growth plans.
- **Christadelphian Aged Care** – Swift signed an agreement with Christadelphian Aged Care to bring our Swift Access solution to their Ashburn House Care facility. This agreement is for a 12-month term to showcase Swift Access to Christadelphian Aged Care Ashburn House team with a view to upgrading all four of Christadelphian's Residential Aged Care homes in Sydney and Brisbane at a later date.
- **HammondCare**– Through Swift's partners Hubify Limited (ASX:HFY), Swift signed an agreement for HammondCare's Sinclair Cottage facility. Swift now provides its Swift Access product across 15 HammondCare facilities.

Swift continues to see increased engagement from potential customers in both its initial markets of Mining and Aged Care on the back of increased sales and marketing presence within both sectors.

Within the quarter Swift's delivery teams completed project works at Iluka's Cataby site, Atlas Iron's Abydos Camp, BHP's Carrapateena camp and in Aged Care at St Agnes – Emmaus facility and Hammondcare's Sinclair Cottage facility.

Swift Concierge and Swifts response to new HELF in Aged Care

From 1 July 2025, Higher Everyday Living Fees (HELF) will replace the Extra Services (ESS) and Additional Services (AS) framework under the new Aged Care Act. Research by Pride Aged Living Consultancy indicates that this transition will impact at least 41% of providers, with 89% identifying revenue from Additional Services as critical to financial stability.

In response to these industry changes Swift has accelerated the development of ordering functionality feature for the Swift Access platform. Swift Concierge provides a strategic opportunity for Aged Care providers to drive revenue and enhance value under the HELF framework by:

- Expanding 'opt-in' service packages with Premium Entertainment offerings.
- Enabling residents to seamlessly purchase services via Swift Access TV, including food, drink, excursions, appointments (hairdressing, GP) etc.
- Facilitate families and friends in purchase goods and services for their loved ones in care via the connected Swift app, unlocking new revenue streams for providers.

- Strengthen communication tool for families to not only share pictures and videos but added ability to access and update their loved one's calendar to manage free and paid activities plus appointments.

This innovative feature allows providers to capitalise on the evolving aged care landscape while maintaining competitive and sustainable revenue growth. Swift Access therefore becomes a means for revenue generation for Aged Care providers as opposed to an additional cost.

Q3 Outlook

Swift will continue to deliver upon its contracted revenue in both Mining and Resources and Aged Care sectors to ensure subscription revenues can be recognised as soon as possible. As outlined above, Swift has moved quickly to respond to the new HELF Aged Care legislation to be implemented from 1st July 2025. Swift's new Concierge functionality is aimed at becoming a must have practical solution for Aged Care providers to generate revenues and enhance family communication and engagement of their loved ones in Aged Care. Product development will continue for Swift Concierge and the next generation of Swift Access as a priority to commercialise these new features as soon as possible. Swift has received a \$1.5m R&D tax refund in Q3 and utilised a portion of funds received via its R&D refund to reduce general and supplier liabilities.

The following graphs represent subscription growth of Swift Access since its launch. Swift continues to focus on project work which leads to increased subscription revenues.
