## **Swift's Managing Director, Brian Mangano commented:**

*"Swift is ideally positioned to take advantage of major changes to its initial target markets of Mining and Aged Care as the markets move away from traditional linear PayTV systems in Mining and as Aged Care providers adapt to the introduction of new legislation governing provider funding and compliance.*

*This is a pivotal time for the Company following the marketing launch of Swift Access 2025 in October 2024 and the scheduled commencement of initial customer site implementation with Roy Hill and Bethanie Aged Care in April 2025. Swift is now at the right place at the right time with its latest Swift Access platform. Swift can take advantage of changes in its current markets of Mining and Aged Care and with the future development of new hardware enter into new markets with an easy to install, price competitive product.*

*We appreciate the ongoing support of our existing shareholders and encourage all to review the offer documentation and participate in the Entitlement Offer."*

## **Use of Funds**

The partially underwritten Entitlement Offer will raise between \$2.0 million and \$3.3 million (before costs), with net proceeds to be contributed towards the development, marketing and production costs for the next generation of Swift Access and the partial repayment of the PURE Loan Facility.

Swift is entering a new growth phase with the introduction of Swift Access 2025. Swift's recent product development encompasses an entirely new user interface and experience combined with the ability to integrate into external Apps to create an ideal Connected TV entertainment and communications platform designed for business.

Swift intends to use funds raised for sales/marketing and working capital associated with increasing market awareness and penetration of Swift Access 2025 into the Mining and Aged Care markets. Funds will also be utilised for further product feature developments along with progressing the development of Swift Access 2026 which will see the introduction of a new hardware solution that will substantially reduce system installation costs.

Funds are also intended to be utilised towards the reduction of debt owed under the PURE Loan Facility. Accordingly, the principal amount owing will reduce from the from \$7.6 million to \$6.2 million as at 28 February 2025 on a proforma basis. Net debt is expected to be approximately \$3.0 million if the Entitlement Offer is fully subscribed.

Changes in both Mining and Aged Care markets are creating demand for better value flexible solutions to meet legislative changes and manage communications and entertainment needs. Swift believes it is ideally placed to take advantage of these long-awaited changes as these industries move away from linear PayTV.

The combination of significant market changes, the introduction of Swift Access 2025 along with suitable funding is expected to drive shareholder value.
