Target Market	
Investment Objective	<p>The Company expects the offer of New Options under the Corporate Adviser Offer to be suitable to those:</p> <ul style="list-style-type: none"> • looking to be rewarded for acting as a sub-underwriter to the Entitlement Offer who wish to hold equity in a micro/small cap technology, media and entertainment company listed on the ASX; and • looking to diversify their investment portfolio.
Investment Timeframe	<p>The New Options have an expiry date of 3 years from their date of issue.</p> <p>The target market of investors will take a short to medium-term outlook in relation to their investment. Investors with a short-term outlook for their investment will benefit from an ability to exercise New Options and trade the underlying Shares issued on exercise should the exercise price of the New Options be lower than the trading price of Shares. Investors with a medium-term outlook will benefit from an ability to exercise the New Options within the approximate 3-year term of the New Options and increase their shareholding and exposure to the potential upside in the Company's Shares into the future.</p> <p>Given the need to pay the Exercise Price to acquire the underlying Shares, investors in the target market are those who are financial position that is sufficient for them to invest their funds over an approximate 3-year time horizon should they wish to exercise their New Options. Any decision to exercise the New Options is likely to be based on the trading price of the Shares.</p>
Investment Metrics	<p>While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the</p>

	<p>value of their investment. The New Options offer no guaranteed income or capital protection.</p>
Risk	<p>The Company considers that, while the issue price of the New Options is \$0.00001, an investment in the New Options offered in connection with the Prospectus should be considered highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment.</p> <p>Investors should also have a sufficient level of financial literacy and resources to understand and appreciate the risks of investing in New Options as a separate asset class generally and the more specific risks of investing in the Company.</p>
Distribution Conditions	<p>The offer of New Options under the Prospectus is being made to the Corporate Adviser and its nominees.</p> <p>The Prospectus will include jurisdictional conditions on eligibility. The Company will also include on its website a copy of this TMD and require that retail clients confirm that they meet the eligibility criteria of the expected target market outlined in this TMD before they apply for New Options.</p> <p>The Company considers that these distribution conditions will ensure that persons who invest in the New Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.</p>
Review Triggers	<p>The New Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the New Options will no longer be available for investment by way of issue.</p> <p>It follows that the TMD will only apply in the period between the commencement of the offer of the New Options and the issue of the New Options (Offer Period). The Company anticipates the New Options will be issued on or about 29 April 2025 under the Company's existing placement capacity.</p> <p>To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the New Options and should be reviewed, the following review triggers apply for the Offer Period:</p> <ul style="list-style-type: none"> • a new offer of New Options that requires preparation of a disclosure document is made after completion of the Offer Period; • any event or circumstances that would materially change a factor taken into account in making this TMD; • the existence of a significant dealing of the New Options which is inconsistent with this TMD. The Company does not consider an on-sale of the New Options (where possible) on market is a significant dealing; • ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the New Options or this TMD; and • material changes to the regulatory environment that applies to an investment in the New Options.

Review Period	<p>If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger.</p> <p>The Company will otherwise complete a review of the TMD immediately prior to the issue of New Options under the Corporate Adviser Offer.</p>
