Swift announces Project wins of \$2.06 million

- Swift has been awarded Project contracts with multiple companies including OTOC, AngloGold Ashanti, Mineral Resources, and Roy Hill.
- \$2.06 million in Total Contract Value for infrastructure work to be undertaken in calendar 2023.

Swift today announced it has recently secured several Project contracts across multiple sites for market leading companies within WA's Mining and resources sector. Under the new agreements Swift's engineering and delivery teams will design and install various network infrastructure and Wi-Fi infrastructure solutions, aligned with the needs of each individual site.

Through consultation with each customer, Swift's in-house engineering and delivery teams will leverage their extensive knowledge and expertise within the Mining and Resources sector to ensure each network and Wi-Fi infrastructure solution supports reliable and stable connected services. The designs will not only support the delivery of an enhanced on-site living experience, but also ensure the solution is scalable and future proofed.

The Total Contract Value of these agreements is \$2.06 million in infrastructure work. Whilst the aggregate revenue from these contracts is material to the Company, no individual contract generates revenue over \$1.0 million.

Swift CEO Brian Mangano says, "These new contracts are significant not only in the revenue they deliver to Swift's P&L in H2-FY23 and H1-FY24, but they also represent strategically important new and expanding relationships within Swift's growing customer base".

About Swift

Swift is a specialist technology company delivering a premium entertainment and engagement platform powered by proprietary technology and network infrastructure. Swift provides an end-to-end solution, including consulting, design, and installation services. Swift's solution has been developed specifically for communities with significant benefits to be achieved by all stakeholders via offering tailored solutions, including Mining and Resources, Residential Aged Care, Retirement Living, Government, and other sectors.

Swift entertains, engages, and enables the development of communities.

This announcement was approved and authorised for release by the Swift Board.
