Swift's Managing Director, Brian Mangano commented:

Swift is well-positioned to benefit from significant changes in its core markets of Mining and Aged Care, as Mining moves away from traditional PayTV systems and Aged Care adapts to new funding and compliance regulations,

Our new generation product, Swift Access 2025/26, has been in development for 18 months. It will continue to offer all the media and communication capabilities of the existing product but will also encompass a new user interface and will integrate into external streaming Apps, to create an ideal connected TV entertainment and communications system.

Switching costs have contributed to customer inertia inhibiting adoption of our products. The new product will have a lower production cost and be easier and cheaper to deploy into customer facilities. We believe this, together with lower subscription fees compared to PayTV and our enhanced features will lead to faster growth than has historically been the case.

We wanted to offer our existing valued shareholders the opportunity to participate in our first capital raise in over four years to support funding our exciting plans for growth.

Use of Funds

The Entitlement Offer net proceeds are intended to be contributed towards the development, marketing and inventory costs for the next generation of Swift Access, and the partial repayment of the PURE Loan Facility.

Funds are also intended to be used for further product feature developments along with progressing the development of Swift Access 2026, which will see the introduction of a new hardware solution that will substantially reduce system installation costs.

PURE Loan Facility restructure

As previously announced, the Company and PURE also entered into an amendment and restatement deed (**Amendment and Restatement Deed**) to revise the terms of the PURE Loan Facility.

Pursuant to the terms of the Amendment and Restatement Deed:

- \$1.4 million from the proceeds of the Entitlement Offer will be utilised to pay down a portion of the PURE Loan Facility, reducing the principal amount owing by the Company from \$7.6 million to \$6.2 million;
- the loan repayment date has been extended to 31 March 2027; and
- the following covenants have been incorporated into the PURE Loan Facility:
 - Swift must maintain a minimum maintenance cash balance of \$1,000,000 at the end of each calendar month; and
 - Swift must maintain a capex expenditure of no more than \$350,000 per quarter.

This announcement has been approved for release by the Board of Swift Networks Group Limited.
