SWIFT SECURES \$1.0M CONTRACTS WITH ILUKA RESOURCES

HIGHLIGHTS

- **\$1.0 million total contract value of agreements with Iluka Resources Limited to deliver Swift Access for 36 months.**
- **Contracts includes network upgrades and installation of Swift Access at Iluka's Cataby site along with Swift Access subscriptions for both of Iluka's Eneabba and Cataby mine sites.**

Today, Swift has signed an installation and subscription agreement to provide Swift Access to Iluka's Cataby site for 36 months. This follows on from the recent signing of Swift Access subscription services for 36 months for Iluka's Eneabba mine site.

This contract includes the provision of product support by Swift's highly skilled 24/7 Technical Support teams.

The Total Contract Value over the full 36-month term is \$1.0 million, with subscription revenues commencing in September 2024.

Swift Access provides remote mine sites with a TV based communications and entertainment platform without the need for new Televisions, high bandwidth or expensive pay TV systems. Swift Access turns any TV into a smart TV and provides secure casting, the delivery of site messages/information, company content and the latest movies to rooms across the mine site.

Swift Access' Secure Casting provides enhanced privacy and security, a key feature in an environment where room occupancy is temporary, for individuals who want to connect their personal subscription services, like Kayo, to their in-room TVs.

Swift CEO Brian Mangano commented, "Swift places its customers at the centre of everything we do. Our teams work together to ensure that our clients are offered the best solution for their business requirements and that they are supported throughout our relationship. This agreement builds upon our prior upgrade work that Swift has executed for Iluka and illustrates our commitment to work with our customers and grow as they grow."
